

Gulshan Kushwaha

Frontend Developer · Learning React.js

gulshansays333@gmail.com | 817-128-6751 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Frontend developer focused on building responsive, user-focused web applications with React.js, JavaScript, HTML5, and CSS3. Built and deployed multiple projects with a focus on clean UI, practical problem-solving, and maintainable code. Currently expanding into Full Stack Development while strengthening Data Structures & Algorithms.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, SQL, C++, Java, Python
Frontend: React.js, Tailwind CSS, Responsive Web Design, Web Typography
Database: MySQL
Tools: Git, GitHub, VS Code, Vercel, Netlify

PROJECTS

FocusForge – Deep Work Command Centre · [Live Demo](#)

- Engineered a full-featured productivity dashboard with task organization, focus tracking, and productivity analytics for structured deep-work sessions.
- Built a fully responsive interface for desktop and mobile using React.js and Tailwind CSS with reusable component architecture.
- Implemented performance optimizations resulting in fast load times and a smooth, consistent user experience across devices.

Cortex – Modern Web Application · [Live Demo](#)

- Shipped a production web application with minimal UI/UX focus — removed visual noise, optimized for performance and usability
- Built with vanilla HTML5, CSS3, and JavaScript using scalable, maintainable component patterns

Personal Portfolio Website · [Live Demo](#)

- Designed, developed, and deployed a professional portfolio on Vercel showcasing projects, skills, and development experience.
- Implemented responsive design, performance optimizations, and lazy loading for fast, cross-device accessibility.

EDUCATION

Bachelor of Computer Applications (BCA)

Makhanlal Chaturvedi National University (MCU), Bhopal | 2026

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Web Technologies, Software Engineering.

ACHIEVEMENTS & DEVELOPMENT

- Deployed multiple production web applications on Vercel and Netlify, handling the full development cycle from design and development to deployment.
- Built **Cortex**, a local-first task tracker using vanilla JavaScript, CSS, and HTML. Focused on brutalist minimalism with 0 dependencies and 0 frameworks.
- Solved **100+ problems** on LeetCode, strengthening problem-solving and Data Structures & Algorithms skills
- Building **Quantix**, a tech discovery and comparison platform that helps users discover, compare, and make smarter decisions when choosing laptops, phones, and other tech products.
